

# **Palm Trees, Coral Reefs, and Making a Difference in the Beautiful Florida Keys.**

***Become a part of the solution by lending  
“a hand up” to hardworking families  
working on their first home to call their own  
and to residents rebuilding their dream after  
Hurricane Irma.***

**Join Habitat for Humanity of the Middle Keys in the southernmost region of the continental US and soak in all that the Florida Keys has to offer. After hammering the day away, cool down with a refreshing beverage and enjoy mouthwatering local cuisine while watching the sun fade into the water. Schedule a free day during your trip and head under the waves to explore the only living barrier reef in the continental United States, do a day trip to Key West, learn about Flagler’s Railroad while enjoying Bahia Honda State Park, or get up close and personal with some unique “locals” at**

## **Dolphin Research Center or Florida Keys Aquarium Encounters.**

**Flexible date ranges available (3, 5, or 7  
day trips); can accommodate groups up to 8  
people!**

**Contact: Jill Bell, Volunteer Coordinator, for more  
information, to reserve dates, or for accommodation  
and activity suggestions/discounts**

**305-743-9828 ext. 3**
